To Whom It May Concern,

Last year I needed to move my professional offices because my lease was ending. Adam Starr was my agent, and he was very well organized and prepared to show me several properties in my area. He surprised me with his level of preparation, his knowledge of the area, and his level of experience in answering all of my questions and communicating effectively with property owners and managers.

Adam did much more than that. He helped me to see that I could renegotiate a lease at my current office and provide me with an outcome that was much more suitable to my needs. Thanks to Adam, we were able to stay in my current office with lease rates that were much more favorable than I ever thought possible.

I highly recommend Adam Starr as a commercial real estate service provider. He is a highly experienced, responsible, responsive professional, and a true pleasure to work with.

Sincerely,
